Objective

- Detail-oriented software developer with a strong foundation in Python programming and expertise in web frameworks such as Flask and Django. Seeking to leverage my skills in building efficient and scalable web applications while contributing to a dynamic development team. Eager to apply my problem-solving abilities and passion for coding to deliver high-quality solutions.

Internship

Praxware Technologies — **June 2023 - July 2023**
Python Intern — *Ahmedabad, Gujarat*

- Developed Proficiency in Python: Gained hands-on experience with core Python concepts, including data types, control structures, functions, and error handling.
- Implemented Object-Oriented Programming (OOP): Designed and developed classes and objects, utilizing encapsulation, inheritance, and polymorphism to create modular and maintainable code.

Infolabz IT Services — **June 2024 - July 2024**
Python with Django — *Ahmedabad, Gujarat*

- Mastered Python and Django: Acquired comprehensive knowledge of Python programming and Django framework, including MVC architecture, routing, and templating..
- Utilized Django's Admin Interface: Customized Django's built-in admin interface to streamline data management tasks, enhancing usability and functionality for administrative users.

Projects

Student Data Management System — <u>Source Code</u>

- The Student Database Management System (SDMS) is a web application developed using Python's Django framework. This project aims to streamline the management of student information, providing an efficient way to store, retrieve, and manipulate student data for educational institutions.

Feedback Web-App — <u>Source Code</u>

- The Customer Feedback Web App is a user-friendly web application designed to gather, manage, and analyze customer feedback for Lexus vechiles buisness. Developed using Python's Flask framework, this application aims to enhance customer engagement and satisfaction by providing a platform for users to share their experiences and suggestions.

Skills

Programming Languages: Python,C
Web Frameworks : Django , Flask
Frontend: HTML, CSS
Database management system : SQL
Deployment: Herokul
Version Control: Git, GitHub
Developer Tools: VS Code, PyCharm
Soft Skills: Leadership, Communication, Teamwork,Problem-solving
Areas of Interest : : Cricket, VolleyBall, Cooking

Education

Gujarat Technological University (GTU) — **2021 - 2025**

- B.Tech Computer Science and Engineering
- **CGPA : 8.3/10**

Extra-Curricular Activities

Leadership Role

Co-ordinator, CKC

Organized coding contest for students in which we select different students from different semester and we provide some questions for solving .
